WELCOME TO LES GARRIGUES

I would like to extend a warm welcome to all those settling in Les Garrigues for the first time, one of the 41 counties of Catalonia. Comprising 24 municipalities, it is a region of remarkable historical and cultural wealth, featuring heritage elements such as dry-stone constructions set within a landscape that stretches from open plains to mountain areas, and marked by olive groves, almond trees, and a rich variety of dryland and irrigated crops.

Les Garrigues preserves traditions and customs that have endured for centuries, shaped in no small part by the contributions of people who have arrived here from across the world. Welcoming newcomers is both a right for everyone who comes to Catalonia and a responsibility shared by the society that receives them. I invite you to discover this culture, to become familiar with it, and, in time, to make it your own.

Our county has long been a land of welcome, and we want to make your integration into both your municipality and the wider region as smooth as possible. This guide is intended to inform you of the various resources available in Les Garrigues and to explain how to access services such as healthcare, education, cultural activities, and advice or support. County and municipal services, together with local organisations and residents, work collectively to promote inclusion and harmonious living in a diverse community. Through this county-wide network, we offer the support and guidance you may require.

We suggest a basic pathway to help you settle in, beginning with registering your residence (empadronamiento) and contacting the reception service.

Antoni Villas Miranda

President of the County Council of Les Garrigues

REGISTRATION

The *padrón* is the official register of people living in a municipality. Registering (*empadronamiento*) is a free procedure that allows you to be officially recognised as a resident of the municipality and of the Spanish state. Everyone living in the municipality has the right to register, regardless of their administrative situation or housing conditions.

There are two ways to register:

- **In person** at your local Town Hall, or
- **Online**, by submitting a general application form (for this, you will need a digital certificate, which is issued by the County Council. A passport is sufficient to obtain it).

Being registered is essential for carrying out procedures related to immigration law, and for accessing public services such as education or healthcare.

Non-EU foreign nationals without permanent residency must renew their registration every two years. Failure to renew will result in removal from the municipal register. You must also inform the Town Hall if you return to your country of origin or leave Spain.

You will be assisted at the Citizens Services Office of the Town Hall where you live.

 See Annex 1. Addresses and contacts of town halls

SERVICE FOR THE CARE OF MIGRANT PERSONS

The County Council offers the Migration, Reception and Shared Dignified Living Service, designed to provide broad support to the whole community of Les Garrigues. Some of its services – such as the reception programme and the guidance and legal advice on immigration matters – are specifically aimed at migrant foreign nationals, asylum seekers, refugees, stateless persons, and, to some extent, Catalan returnees.

The service works in coordination with all the municipalities in the county. It offers:

- **Advice and guidance** on the different pathways to regularisation and other immigration procedures.
- **Support throughout the entire process** of obtaining Spanish nationality.
- **Management of immigration reports** required by the Government of Catalonia (housing suitability reports and reports on social integration efforts).
- **Issuing of first-reception certificates.**
- **First-reception training**, including Catalan courses, digital skills courses, Module B and Module C.
- **Support throughout the family reunification process.**
- **Training for professionals** in public administrations and for members of organisations.
- **Awareness-raising activities**, aimed both at schools (workshops for primary and secondary pupils) and at the general public. These activities emphasise respect for, and recognition of, cultural diversity as a source of richness and fairness. They also aim to highlight stereotypes and prejudices towards migrant people, encouraging reflection on their consequences, such as discrimination or social exclusion. Among other initiatives, events are organised to mark dates such as **International Migrants Day (18 December)**.
- **Information and guidance regarding cases of discrimination** based on origin, beliefs, physical appearance, and other grounds, in accordance with Law 19/20 on Equal Treatment and Non-Discrimination¹.

THE CATALAN EDUCATION SYSTEM

Education is a fundamental human right and therefore universal (Art. 26 of the Universal Declaration of Human Rights). Everyone living in Catalonia is guaranteed access to compulsory education.

EDUCATION STAGES

Enrolment Procedure:

To enrol children and young people in any compulsory or post-compulsory stage of education, you must first complete the online pre-enrolment form at: <https://preinscripcio.gencat.cat/ca/inici>

The ordinary pre-enrolment period is **March** for compulsory stages, and **May** for the remaining educational stages.

Not being registered on the municipal census, or being in an irregular administrative situation, does **not** prevent your children from being enrolled in school. When completing enrolment at a public school, you may request that your son or daughter receive classes in one of the following religions: Islam, Judaism, Evangelical Christianity or Catholicism.

The school year begins in **September** and ends in **June**.

If you have any questions or need guidance, you may contact the educational centre where you wish to enrol your child or young person, or your local town council.

You can also consult the **Les Garrigues Educational Support Service**:

-  pee@lesborgesblanques.cat

 To find out about and contact the educational centres, see Annex 3 Educational Centres of Les Garrigues.

Complementary Educational Services:

- **School Canteen:** Almost all nursery and primary schools (and some secondary schools) offer a canteen service for children who need to have lunch at the school. This service has a cost for families.
- **School Transport:** Students who do not have a school or secondary school in the municipality where they live are entitled to free school transport to their assigned centre. They are also guaranteed free access to the school canteen.
- **Extracurricular Activities:** Sports, artistic, cultural, or technological activities that take place after regular school hours.
- **Casals (Holiday Activity Programmes):** Many schools organise leisure activities during school holidays. These programmes help maintain the link between children or young people and the school, while also supporting work–family balance for caregivers.

 It is very important for families to take part in the school or institute's Families' Association (AFA). Thanks to the volunteers who make up the AFA, it is possible to organise extracurricular activities, training workshops, and support the preparation of school celebrations. The AFA also looks after the wellbeing of the families, gathers suggestions and proposals for improvement, and conveys them to the school management, acting as the link between families and the teaching staff.

ENVIRONMENT

Recycling, reusing and recovering help protect the environment and contribute to a healthier way of life. It is compulsory to separate your waste and place each type in the appropriate container: the yellow bin is for light packaging, the green one for glass, the blue one for paper and cardboard, the brown bin (or grey with a brown lid) for organic waste, and the grey one for everything else.

In **Arbeca, Cervià de les Garrigues, el Cogul, la Floresta, Juneda, la Granadella and Puiggròs**, a door-to-door collection system has been introduced. This will gradually be extended to other municipalities. To find out whether this system applies to your place of residence, as well as the timetable and the type of waste collected each day, please contact your local council.

COMARCAL RECYCLING CENTRES

Recycling centres are facilities where you can take household waste that cannot be disposed of in the standard street containers (batteries, cooking oil, lightbulbs, fluorescent tubes, clothing, computer equipment, etc.). They are a public service allowing us to bring all kinds of waste—both recyclable and special—so that it can be reused or properly treated.

These centres receive our waste and ensure it is processed in a way that does not harm the environment and allows for reuse wherever possible. They form part of the selective waste-collection system and help increase overall recycling rates.

There are three recycling centres in Les Garrigues:

Les Borges Blanques Recycling Centre

- 📌 Some municipalities, such as Granyena, offer **door-to-door** micro-clean points. Check with the Town Hall for the collection dates.

LARGE ITEM COLLECTION

If you are interested in the Large Item Collection service (household appliances, mattresses, old furniture, computer and office equipment, etc.), you must call the Town Council to request the pickup.

RECYCLING: WHERE DOES EACH ITEM GO?

- ✓ Plastic bottles and containers, cans, cartons (tetra briks), bottle caps, plastic yogurt pots, plastic bags, plastic boxes, fruit nets, polystyrene trays, toothpaste tubes, plastic wrap and aluminium foil, small wooden boxes (like strawberry boxes), household spray cans, deodorant containers, etc.
